

Voted “**Best Furniture Store in the Capital Region**” by Capital Region Living

Congratulations!

You’ve taken the first step toward making your dream room a reality, and our design team is here to help guide you from vision to reality. We will be your partner every step of the way, giving you the information and confidence to create something you will love! We will listen to your thoughts and ideas, make recommendations on furniture and fabrics that are appropriate, and present a plan uniquely suited to you and your budget.

Let’s get started!

Measure your room and record it in the digital layout page. Don’t forget about windows, doors, and major aisles.

Collect images that inspire you. Not just whole rooms, and not only furniture and interiors, but anything that speaks to you. A pattern of favored colors and styles will begin to emerge.

Email us to make an appointment. Share your notes with us and we’ll become a partner. Our in-store team is ready to help.

Be sure to visit our Design Help page online, oldbrickfurniture.com/page/design-services.html, for more details.

We can’t wait to meet you and begin creating a beautiful room together!

Best Regards,

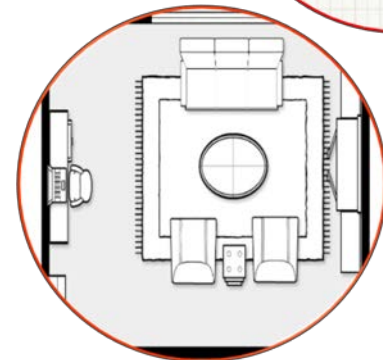

Old Brick Design Team

Your Photos

Your Sketch & Measurements

Designer’s Proposed Room Plan

Design Guide

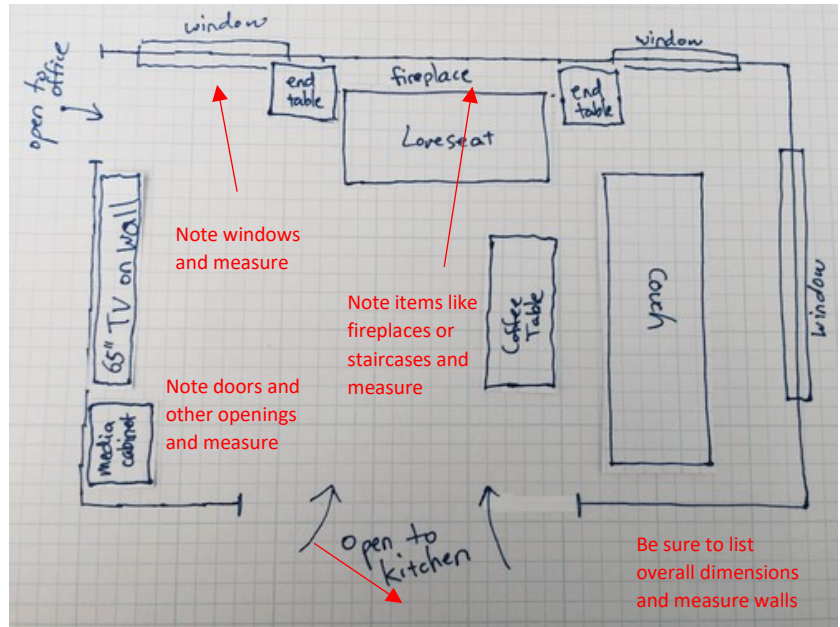

To best envision your space, we will need detailed information regarding your room measurements, dimensions of any existing pieces you will be keeping, and layout sketches (see figure to right). We will also want to know your wishes for how your space should function and feel.

Measurements

Make sure to include doors and windows, and consider traffic flow through your space. The more measurements you provide, the more accurate our suggested floor plan can be. For example, if you have a set of French doors, we'll need to know how wide they are, if they all open, and which way they open so that furniture placement does not impede their function.

Photographs

A picture is worth a thousand words. Stand at each corner of your room and take a photo that includes at least two walls and a bit of the ceiling. Snap a few straight on photos of any walls with defining elements, like large fireplaces, columns, or window banks. Pictures of the existing items you'll be using are helpful too, so that we will know how to complement them.

Room Questionnaire

Please fill out the information below:

- TITLE OF ROOM
- DIMENSIONS OF ROOM
- HOW IS THE ROOM USED?
- ADJACENT ROOMS
- PAINT COLOR
 - Brand:
 - Color Name:
- FLOORING
 - Carpet Wood Tile
 - Color of Flooring:
- CEILING HEIGHT
- EXISTING FURNITURE

Please include the width, depth, and height of each piece.

<i>Sofa</i>	<i>108"</i>	<i>45"</i>	<i>42"</i>
